

Seizing Opportunity: Forestry and the BioEconomy

September 20-21, 2007

Ruttger's Sugar Lake Lodge, Grand Rapids, MN

A working meeting jointly sponsored by Iron Range Resources and Blandin Foundation

REGISTER NOW!

Seizing Opportunity: Forestry and the BioEconomy

Join **Iron Range Resources** and **Blandin Foundation** at an economic summit designed to help northeastern Minnesota leverage the unique natural resource and economic assets of the forest industry to take advantage of opportunities in the new bioeconomy.

- » Hear the results of an exclusive study of implications of the new bioeconomy for Minnesota's forest products industry;
- » Interact with new maps of Minnesota's forest resources and discuss the implications of location, management and ownership for the use of that resource;
- » Begin identifying opportunities for Minnesota's forest products industry to participate in the bioeconomy in ways that also benefit communities and the forest resource itself; and
- » Constitute a Task Force to develop an Action Plan for positioning the state and our region to act on those opportunities.
